

RICHIE RAIL 18

Timber handrail shown is an example. Please consult for timber profile and material options. Schematic dimensions are based on a 42mm round handrail.

Richie Rail 18 is a unique illuminated handrail system. Hollow wall brackets conceal the power supply to the LED strip, and the low voltage input makes the handrail safe to touch. The innovative sliding wall brackets allow minimal power feeds to the LED strip for simple installation. Richie Rail 18 is suitable for use on residential and commercial stairs and thoroughfares including accessible routes and urban spaces. The profile is designed to be used with various timber profile and timber types.

TECHNICAL DATA

APPLICATIONS	Residential or commercial stairs, public stairs, accessible routes.	MATERIALS	316 stainless steel wall bracket, extruded aluminium, polycarbonate diffuser	LIGHT SOURCE	LED ribbon strip
INSTALLATION	Interior only	FINISH	Satin 316 stainless steel wall bracket	POWER SUPPLY	24V DC - remote driver options ranging from 6 W up to 320 W
MOUNTING	Wall-mounted			DIMMABLE	Various options available, please enquire.

FEATURES

- Unique illuminated handrail system
- Wall mounting bracket design for easy installation
- Polycarbonate diffuser - UV resistant
- Max. 18 W per metre
- IP 65 20 W strip not feasible
