

DADO DAVE 20

Dado Dave 20 is a sleek, architectural profile designed to provide high-output up lighting. The LED strip is positioned to maximise asymmetric distribution which offers smooth light out into the space. The concealed light source keeps glare to a minimum, while up to 2500lm per metre LED strip means it packs a punch. The extrusion is designed for super-quick screw-fixing, while a clip-in aluminium lid covers the screw heads and provides a smooth, easy-to-clean surface. For applications where Dado Dave 20 is being mounted flush with the bottom of a bulkhead, then the mounting adaptor can be used to reverse the direction of the mounting screw.

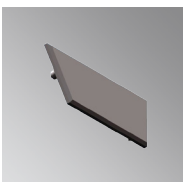

TECHNICAL DATA

APPLICATIONS	Concealed indirect lighting for living rooms board rooms hallways	MATERIALS	Extruded aluminium body Polycarbonate diffuser aluminium end caps	POWER SUPPLY	24V DC - remote driver options ranging from 6 W up to 320 W
INSTALLATION	Interior only	FINISH	Natural silver anodised or custom powder coat	DIMMABLE	Various options available, please enquire.
MOUNTING	Surface-mounted	LIGHT SOURCE	LED ribbon strip		

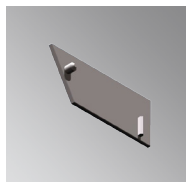

FEATURES

- Powerful indirect lighting
- Quick, screw-fix extrusion
- Mounting adaptor for bulkhead mounting
- Clear or opal diffusers
- Max. 20 W per metre
- IP 65 20 W strip not feasible
